Actually we didn't use this one in the end at UPEI because the room was too narrow. It has often been the issue with this diagram, which is why I didn't send it to Luis.

I am attaching the revised cheat sheet with the right numbers.

Regards,

Nathalie

Hi Luis,

Sorry about that. I saw that Nathalie just sent you other diagrams, but forgot the one with the setup that has been used for the past couple of years, I have attached it. Please note that in Charlottetown the space was a bit of a problem, therefore the setup changed.

Thanks,

Liliana

Liliana—you had to burst my bubble of pride! You are correct and now I have to print 20 new copies! Thanks for catching and flagging that. Doe this look correct?

BTW- what is the set up for the in camera, JPAC, and Council Session? In simple terms—is it meeting, classroom/conference, classroom/conference respectively (or is it theater?)? They keep asking me that. I know you will handle all the details, but I want to be able to give them a generic term for the use of the different rooms so they have a sense of that layout.

Does this look Ok now? Should we add the type of room in the main boxes? (classroom/theater?)

Thanks.

Hola Luis,
Thanks for your email. I just noticed there is no room for the Council in camera meeting. Is that correct?

Best,

Liliana
